**MINUTES of
NORTH WESTERN AREA PLANNING COMMITTEE
11 SEPTEMBER 2024**

PRESENT

Chairperson Councillor M E Thompson
Councillors C P Morley and L L Wiffen

265. CHAIRPERSON'S NOTICES

The Chairperson welcomed everyone to the meeting and went through some general housekeeping arrangements for the meeting.

266. APOLOGIES FOR ABSENCE

Apologies for absence were received from Councillors M F L Durham, J C Hughes, R H Siddall, S J N Morgan, E L Stephens and S White.

267. MINUTES OF THE LAST MEETING

RESOLVED that the Minutes of the meeting of the Committee held on 14 August 2024 be approved and confirmed.

268. DISCLOSURE OF INTEREST

There were none.

269. 23/00977/OUT LAND ADJACENT THE OWLS, WOODHAM ROAD, STOW MARIES

Application Number	23/00977/OUT
Location	Land adjacent The Owls, Woodham Road, Stow Maries
Proposal	Outline planning application with all matters reserved apart from access for the erection of two residential dwellings.
Applicant	Mr and Mrs Willmott
Agent	Mr Andrew Loader – Rachel Furze Design Ltd
Target Decision Date	13 September 2024
Case Officer	Juliet Kirkaldy
Parish	STOW MARIES
Reason for Referral to the Committee / Council	Member Call In Councillor S J N Morgan – Policies S1, S7 and H7 This application is different to previous refused application 22/01184/OUT. Members should have an opportunity to compare and contrast the two applications to assess whether the latest application has overcome the objections to the first one.

Following the Officer's presentation, the Agent, Mr Davies addressed the Committee. The Chairperson then opened the floor for debate.

Members raised queries regarding the proposed development being in a sustainable location and the removal of the hedgerow. Officers confirmed that they had taken their cue from previous Planning Inspector decisions as detailed in the Officer's report. The removal of the hedgerow to allow for vehicular access and, in particular, the required site lines for vehicular and pedestrian safety in accordance with the requirements of the highway's authority, would have led to an unacceptable loss of hedgerow and a strong landscape feature for the village.

Councillor C P Morley proposed to refuse the application in accordance with the Officer's recommendation, which was duly seconded and upon a vote being taken was agreed.

RESOLVED that the application be **REFUSED** for the following reasons:

- 1 The site is located outside of a defined settlement boundary and is in open countryside, where policy constraints apply. Future occupants of the site would be heavily reliant on the use of the car to gain access to everyday services and facilities and employment opportunities and as such the proposal does not provide a sustainable form of development. The proposal does not accord with the Council's spatial strategy contrary to Policies S1, S8, D1, H4, T1 and T2 of the Maldon District Local Development Plan (2017) and guidance set out in the National Planning Policy Framework.
- 2 The proposed development would consolidate built form along Woodham Road eroding the open spacious character which contributes to the street scene altering the existing rural character of the site. The proposal would result in material harm to the character and appearance of the site and surrounding area. The development is therefore contrary to Policies S8, and D1 of the Maldon District Local Development Plan (2017) and guidance set out in the National Planning Policy Framework.
- 3 The creation of a vehicular access in the location proposed when provided with the necessary visibility splays would lead to an unacceptable loss of hedgerow which is a strong landscape feature, and which is protected by a Hedgerow Retention Notice. The development is therefore contrary to Policies S8 and D1 of the Maldon District Local Development Plan (2017) and guidance set out in the National Planning Policy Framework.
4. In the absence of a completed legal agreement pursuant to Section 106 of the Town and Country Planning Act 1990, the necessary financial contribution towards Essex Coast Recreational Disturbance Avoidance and Mitigation Strategy has not been secured. As a result, the development would have an adverse impact on European designated nature conservation sites, contrary to Policies S1, D1, N1 and N2 of the Maldon District Local Development Plan (2017) and the guidance set out in the National Planning Policy Framework.

There being no other items of business the Chairperson closed the meeting at 8.03 pm.

3. SUMMARY

3.1 Proposal / brief overview, including any relevant background information

Site description

- 3.1.1 The application site extends to approximately 21.5 hectares and comprises 102 holiday homes (Warren Lodges), together with an amenity building housing a swimming pool and gym. The application site is known as Warren Pit and is within the ownership of The Warren Estate, which covers an area of 145 hectares and including The Warren Golf Club.
- 3.1.2 The land slopes steeply down from the west, wherein the main vehicular access route is from Herbage Park Road (which provides access to the 'Warren Lodges' holiday homes and The Warren Golf Club). A public right of way (PRoW) runs alongside the northern boundary beyond which is woodland. To the east is undeveloped and open land, whilst to the south beyond existing tree planting on site, is Herbage Park Road.
- 3.1.3 The site is identified as a Wildlife Site (MA8). It is located outside of the Conservation Area. In addition, it is within Flood Zone 1 as identified in the Environment Agency's (EA's) Flood Map and therefore has a low probability of flooding from rivers and the sea.

Description of proposal

- 3.1.4 The application seeks to vary condition 5 of application permission 15/00590/FUL which reads as follows: -

With the exception of any building or structure required to be provided by conditions on a site licence issued under the Caravan Sites and Control of Development Act 1960, no structures, tents or similar items shall be erected or placed on the site without the prior approval in writing of the local planning authority.

- 3.1.5 It is proposed that the wording of the varied condition could be as follows: -

With the exception of any building or structure required to be provided by conditions on a site licence issued under the Caravan Sites and Control of Development Act 1960, no structures, tents, garden paraphernalia, or similar items shall be erected or placed on the site without the prior approval in writing of the local planning authority with the exception of a single storage shed no greater than 2.5m x 4metres and no greater than 4metres from each lodge.

- 3.1.6 The Planning Statement submitted with the application sets out there is a need for each lodge to have an outbuilding for the storage of 'out of season items such as deckchairs, garden furniture and other items that would be damaged if left outside during winter months'. The majority of the units have already erected with such an outbuilding, and thus the application is part retrospective.

3.2 Conclusion

- 3.2.1 The variation of Condition 5 on application 15/00590/FUL would allow the provision of 1no. small outbuilding (size to be restricted via condition) to serve each holiday lodge. The need for such storage has been adequately set out and would support the existing tourism use on site in compliance with Policy E5 and S8 of the LDP. In

addition, planning permission under 24/00358/VAR has already been approved for the change to the drafting of the relevant condition restricting shed structures for 48 of the holiday lodges at the site. The principle of development is therefore acceptable and supported.

- 3.2.2 Given the siting of each outbuilding, which would be within 4 metres of the lodge it serves, and due to the size and scale of building that would be permitted, there would be no harm to the wider character and appearance of the site or locality. The structures would not appear unduly prominent from within the site, or from any public views, including from Herbage Park Road or from the PRow to the north.
- 3.2.3 The development will create no adverse neighbour amenity impacts, for either occupiers of existing lodges or to any neighbouring properties.
- 3.2.4 Landscape and ecology matters are acceptable and there would be no harmful impacts in regard to flood risk and drainage.
- 3.2.5 Taking into account the above, the development would accord with the policies within the approved Local Development Plan (LDP) and the National Planning Policy Framework (NPPF). Officers consider that there are no material considerations, that indicate that a decision should be made other than in accordance with the Development Plan.
- 3.2.6 It is recommended that planning permission be granted.

- Maldon District Vehicle Parking Standards Supplementary Planning Document (SPD) (2018)
- Maldon District Design Guide (MDDG) (2017)

5. MAIN CONSIDERATIONS

5.1 The main issues which require consideration as part of the determination of the application are the principle of the development; the impact of the development on the character and appearance of the area; the impact on the amenity of existing residents and any neighbouring residents; highway safety / access / parking matters; landscape and ecology; and matters of flood risk / drainage.

5.2 Principle of Development

5.2.1 The Council is required to determine planning applications in accordance with its adopted Development Plan unless material considerations indicate otherwise (Section 38(6) of the Planning and Compulsory Purchase Act 2004 (PCPA 2004), Section 70(2) of the Town and Country Planning Act 1990 (TCPA1990)) and through Government policy at paragraph 47 of the NPPF.

5.2.2 The site is located outside of a defined settlement boundary and thus lies within a countryside location. Policy S8 of the LDP states that the countryside will be protected for its landscape, natural resources and ecological value as well as its intrinsic character and beauty. Policy S8 sets out the development types that may be permitted where there is no adverse impact to the countryside. One set exception, set out at Policy S8 f) is *'rural diversification, recreation and tourism... (in accordance with Policies E4 and E5)'*.

5.2.3 Policy E5 entitled tourism sets out a positive policy provision for tourism within the District and states that *'The Council will support developments which contribute to the growth of local tourism in a sustainable manner and realise opportunities that arise from the District's landscape, heritage and built environment'*. The policy goes on to set out that tourism will be supported where there is a need identified; where there are good connections with other tourist destinations and to local services; where there would be no detrimental impacts to the character and appearance of the area; and that adverse impacts to the natural and historic environment can be avoided.

5.2.4 In terms of the need for the development, the Planning Statement sets out that there is a need for each lodge to have an outbuilding for the storage of out of season items such as deckchairs, garden furniture and other items that would be damaged if left outside during winter months. Indeed, during the consultation of the application, existing owners of the site have commented and advised that the holiday lodges require a shed to store cleaning equipment, garden care equipment, BBQ's, bicycles, golf clubs, outdoor chairs, fitness equipment and similar. It would not be unreasonable for the owners of the lodges to require additional space for the secure

storage of such items, which would support the use of these tourist lodges. On this basis, the need for the development is demonstrated.

- 5.2.5 In terms of the other criteria of Policy E5, the site has previously been assessed as having good connections with other tourist destinations in the locality and good connections to green infrastructure and local services. In addition, and as discussed later in this Report, there would be no detrimental impacts to the character and appearance of the area and no adverse impacts to the natural and historic environment.
- 5.2.6 The development would meet with the criteria of Policy E5 relating to tourism provision, and thus would meet with the Policy S8 which seeks to protect the countryside. In addition, planning permission 24/00358/VAR, has already approved for the change to the drafting of the relevant condition restricting shed structures for 48 of the holiday lodges at the site. The principle of development is therefore acceptable and supported.

5.3 Layout, design and impact on the character and appearance of the area

- 5.3.1 The principle of good inclusive design and layout and sustainable development has been reflected in the approved LDP, primarily with policy D1 which seeks to ensure that all development will respect and enhance the character and local context. Similar support for high quality design and the appropriate layout, scale and detailing of development is found within the MDDG.
- 5.3.2 The application seeks to vary an existing condition which restricts the siting of outbuildings for the lodges. The application seeks to enable each lodge to be provided with 1 outbuilding, no larger than 2.5 x 4metres, to be sited within 4metres from the lodge it serves.
- 5.3.3 The variation would not control the actual size, design or choice of materials, and thus there would be the opportunity for variation of these matters between each structure within set parameters. As already noted above, a number of the lodges have already erected such an outbuilding, and in design terms the majority are in keeping with the lodge it serves and are discreetly sited. In any event, due to the limited size of structure permitted by the condition, and due to the requirement for it to be sited close to the lodge it serves, there would be no harm to the character and appearance of the site. It is highlighted that the re-drafted condition would continue to restrict other structures and tents at the site.
- 5.3.4 In addition, the structures would only be seen from within the site itself, and there are no public views, either from Herbage Park Road to the south or from the PRoW to the north. There would be no harm to the wider amenity of the area and the intrinsic character and beauty of the countryside would be maintained in accordance with policy S8 of the LDP and the provisions of the NPPF.

5.4 Impact on Residential Amenity

- 5.4.1 Given the siting of the lodges with each other, and due to the scale and siting of outbuilding that would be allowed by the change to the wording of the condition, there would be no unacceptable impact to amenity of occupiers within the lodges on site from outlooking, loss of light or similar.
- 5.4.2 In terms of neighbouring amenity, there are no nearby neighbours and as set out above, the development would not appear prominent from any public viewpoints such that there would be no harm to any neighbouring residential amenity.

5.4.3 Overall, the development would comply with policies D1 and H4 of LDP and section C07 of the MDDG, which seek to ensure that development will protect the amenities of neighbouring properties.

5.5 Access, Parking and Highway Safety

5.5.1 The change to the wording of the condition would not result in a change to highway capacity, with no implications for access arrangements. Matters in relation to highway safety therefore remain acceptable.

5.5.2 There would be no change to parking arrangements on the site. Furthermore, the provision of the outbuildings would provide opportunities for secure storage for bicycles which would add to the sustainability credentials of the site.

5.5.3 The development would comply with policies T2 and D1 of the LDP

5.6 Impact on Ecology and Landscape

5.6.1 In terms of ecology considerations, the Councils Ecology Consultant has advised that there is sufficient ecological information available for determination of the application, and comment that no further adverse effects will result because of the proposed amendments to the Condition. This provides certainty for the LPA of the likely impacts on designated sites, protected and Priority species & habitats and to enable LPA to demonstrate its compliance with its statutory duties including its biodiversity duty under s40 NERC Act 2006 (as amended).

5.6.2 Although the site is a designated Local Wildlife Site, due to the limited scale and nature of the proposal, there would be no harm upon it. The comments from the Parish Council in terms of a potential impact to the nearby Site of Special Scientific Interest (SSSI) are noted. However, the site SSSI, is around 0.6 miles to the east of the site and will be unaffected.

5.6.3 In terms of impacts to existing landscape features, it is noted that the majority of the site's soft landscaping is to the site boundaries or within the areas of open space. The proposed wording to the condition, sets out that any outbuilding would be required to be sited within 4 metres of the lodge it serves. In addition, given the scale of the outbuildings (which would also be restricted via condition) which are likely to sit on a small area of hard surfacing, there would be no harm to landscape features.

5.6.4 The development would comply with policies S1, D1, N1 and N2 of the LDP which seek to conserve and enhance the natural environment, by providing protection and increasing local biodiversity and geodiversity, and effective management of green infrastructure network.

5.7 Flood Risk and Drainage

5.7.1 The application site is located within Flood Zone 1 on the EA's Flood Map and therefore has a low probability of flooding. Due to the scale of the development, there would be no implications for flood and drainage considerations, and thus this would not be a constraint to development. The proposal is thereby considered acceptable in relation to flooding and drainage and the LLFA do not wish to comment.

6. RELEVANT SITE HISTORY

- **05/00798/FUL** - Change of use of disused gravel pit to site for 48 holiday lodges with formation of associated access tracks, landscaping and construction of central administrative and facilities building. Granted.
- **11/00953/FUL** - Proposed addition of 26 new timber holiday lodges plus associated infrastructure within the existing Herbage Park Holiday Park.
- **15/00590/FUL** – Variation of condition 3 on approved planning permission FUL/MAL/11/00953 (Proposed addition of 26 new timber holiday lodges plus associated infrastructure within the existing Herbage Park Holiday Park) Variation: holiday accommodation occupancy period, and;

Variation of condition 2 on approved planning permission FUL/MAL/05/00798 (Change of use of disused gravel pit to site for 48 holiday lodges with formation of associated access tracks, landscaping and construction of central administrative and facilities building) Variation: holiday accommodation occupancy period. Granted.
- **16/01373/FUL** - 28 new holiday lodges with associated infrastructure and access. Granted.
- **24/00358/VAR** - Variation of condition 3 on approved application 05/00798/FUL (Change of use of disused gravel pit to site for 48 holiday lodges with formation of associated access tracks, landscaping and construction of central administrative and facilities building). Variation seeks to alter Condition 3 to allow the siting of a single storage shed for each lodge. Granted.
